Targeted Retail Price Points (Includes slate; does not include pockets or cloth)

---

\$2,999 - \$5,999

Selling Features: Different in a better way

---

1. Unique styling. California House pool table designs match our unique game room furniture collections. We do not use off-the-rack wood parts that are available or used by any other manufacturer.
2. Epic-Rail™ Technology (Patent Pending). Every table incorporates a solid 5/16" x 1", full length steel bar running the entire length of each rail, fastening to the slate. California House's NEW Epic-Rail™ Technology adds almost 3 lbs of steel per rail and eliminates pull-outs or "hot-spot" stress points found with the use of inserts, t-nuts, or non-continuous nut-plates. Epic-Rail™ provides a better foundation for enhanced play.
3. Surelock Slate Support System. Our slate-support stretchers are notched to meet the cabinet side at a perpendicular angle. This small but important detail increases the lateral stiffness of the table by eliminating any strain that is present in "wedge" shaped stretchers.
4. Ingenious, simple assembly. All tables are pre- assembled at the factory prior to shipment, with each part numbered. Complete ends ship assembled for quick in-the-field work. Sides quickly attach to the end assembly via patent pending Zip-bolts, dowels, and cleats for a massively strong structure.
5. Tournament Edition Cushion Rubber. A dual-density rubber that plays quickly and silently no matter the velocity of the shot. Simply the best rubber available today.

Numbering Structure

---

P4488E-PAC-M

P = Pool Table / 4488 = Size of Play Field / E = External Pocket / PAC = Pacifica Collection / M = Maple

Notes

---

- All tables will be available with either an internal pocket (I) or external pocket (E) option.
- Sizes will be available in 7' (39x78), 8' (44x88), Pro 8' (46x92), or 9' (50x100)
- Round or Diamond pearlized sights are standard. Genuine Mother of Pearl sights are an option.
